Forecast For East Midlands
Issued by Met Office Exeter
at 0400 on Sunday 05 Dec 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy, with early rain easing. Showers following. Some brighter spells.

Today:
Cloudy start with blustery winds and outbreaks of rain easing. Further showers are then expected to spread inland from the North Sea through but most western areas drier through the afternoon, with bright or sunny spells. Feeling cold. Maximum temperature 6 deg C (43 deg F).

Tonight:
Rather cloudy evening, with limited clear spells but most parts dry. Frost possible. Cloud then thickens from the west through the early hours, with rain and stronger winds by dawn. Minimum temperature 1 deg C (34 deg F).

Monday:
Rain spreading east, persistent and heavy for a time, with strong gusty winds and hill snow. Clearing early afternoon to sunny spells and isolated blustery showers in the northwest. Cold. Maximum temperature 5 deg C (41 deg F).

Outlook for Tuesday to Thursday:
Frosty start Tuesday. Turning very windy, with rain and hill snow spreading east. Further showers or more prolonged rain likely Wednesday and Thursday, with winds gradually easing.
